EDUCATION

Dr. Virendra Swarup Institute Of Computer Studies	2024 - 2027
<i>Bachelors of Computer Applications</i>	8.28
Mary Jesus Education Centre	2023 - 2024
<i>Intermediate</i>	81%

TECHNICAL SKILLS

Programming Languages: Java, Python

Libraries and Tools: VS Code, Spring Tool,MySQL,PostgreSQL

Frontend: HTML, CSS, Javascript, React

Backend: Javascript, Node.js

RELEVANT COURSEWORK

Data Structures & Algorithms, Database Management System, Operating System, Object Oriented Programming

HANDS ON EXPERIENCE

- Solved basic to intermediate problems in Java and Python
- Practiced recursion, arrays, strings, and OOP concepts.
- Implemented logic-based programs and problem-solving exercise

PROJECTS

E-commerce website:

- Built a dynamic e-commerce interface using HTML, CSS, and JavaScript featuring product listings and interactive components. Implemented basic user interaction flows and improved understanding of front-end logic and usability.

Youtube Clone:

- Developed a responsive front-end YouTube clone using HTML and CSS, replicating core UI elements such as navigation bar, video thumbnails, and layout structure. Focused on responsive design principles and clean interface implementation to enhance user experience.

Personal Portfolio Website:

- Created a responsive portfolio website to showcase projects, technical skills, and achievements. Emphasized clean design, accessibility, and structured content presentation.

Student Management System:

- Designed and implemented a database-driven application using Java and MySQL for managing student information. Developed functionalities for record insertion, updating, deletion, and search operations. Applied JDBC for database connectivity and practiced relational database schema design.
